

Flex-View UV

Fluorescent Dye Flex-Scope

Features

- Flex-scope fluoresces UV dyes.
- Can also be used as a traditional bore-scope.
- Battery powered.

Benefits

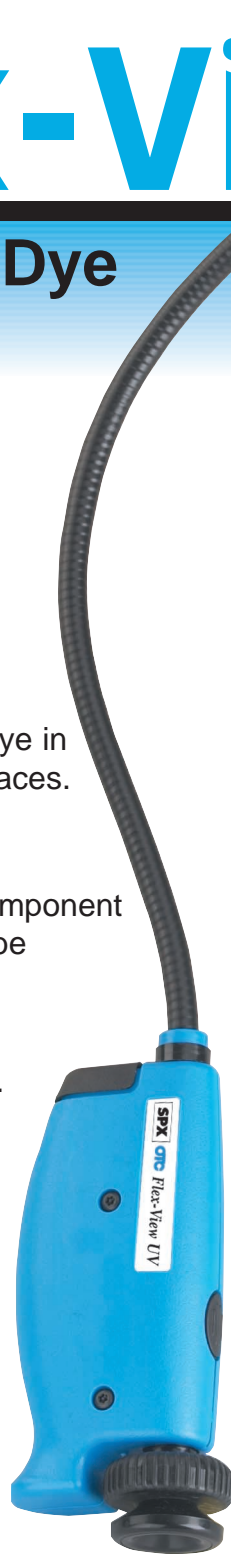

- Quick detection of leak dye in hard-to-see and reach places.
- Ability to inspect inside components.
- Confirms leaks where component removal would normally be required.

Cost Savings

- Reduces diagnostic time.
- Saves time trying to diagnose A/C evaporator leaks.
- Inspect the top side of fuel tanks for EVAP leaks without removal.
- Saves costs by eliminating the need to remove and replace unrelated components.

Uses

- A/C Systems
 - √ Evaporator/Condenser
 - √ Hoses
 - √ Compressor
- EVAP System
- Engine Oil, Transmission, and Power Steering Fluid
- Coolant and Fuel Systems

To check for leaks in the evaporator, the technician simply drills a 1/2" hole in the housing top and inserts the flex-scope. UV dye leak is fluoresced by the flex-scope.

Complements

- ACR2000
- EVAP Tester
- Any system using fluorescent dye

No. 3591 – 18" Flex-View in a sturdy case.

Electronic Torque Angle Meter

- Unique piezo gyro technology.
- Angle Meter clips onto standard 1/2" socket extension or similar drive tool.
- Measure angle 0-199°. 1% CW, 2% CCW accuracy.
- Simple arrow key operation to set desired angle, beep and flash feedback.
- Battery power provides 12 hours use (CR 2035).
- Auto power off.

No. 3559 – Electronic Torque Angle Meter.

Terminal Test Adapter Kit

- For the professional electronic diagnostic technician.
- Set includes an assortment of 28 flexible, color-coded connectors that adapt multimeters or jumper cords to Packard WeatherPack, Metri-Pack, and Micro-Pack terminals.
- Also includes four color-coded patch cords. Comes packaged in convenient storage case.
- Designed for GM, but has applications on many other domestic and import vehicles.

No. 3587 – Terminal Test Adapter Kit.

Introducing OTC Stinger Electronics Battery Test Products

Digital Battery Tester

- Accurately diagnoses battery in 5 to 7 seconds.
- Works on discharged batteries.
- Three LEDs indicate test results.
- Digital display provides readout of actual CCA and live voltage.
- Tests CCA, DIN and ENC2.
- Automatic temperature compensation.
- Bad cell detection.

3191 – Digital Battery Tester.

3191

100 Amp Battery Load Tester

- Works on 6- or 12-volt batteries.
- Analog voltage scale with good/bad ranges.
- Battery cranking and charging volt test scales.
- Heavy-duty copper test clamps.

3190 – 100 Amp Battery Load Tester.
