of the Identifix Direct-Hit
website is included,
a \$240 value!**

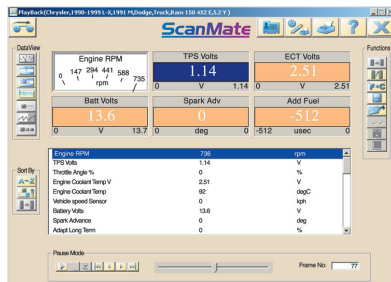

Typical Sensor/Data Values with live data Graphing.

Sensor/Data Descriptions

| Description | |
|----------------------|--|
| Mass Air Flow | The mass air flow sensor produces a frequency signal that varies with the amount of air entering the engine. The powertrain control module/vehicle control module converts this signal to gm/s and uses this information for fuel delivery calculations. |

Improved ScanMate PC Software

Upload recordings, play back recordings, print reports, export captured data in spreadsheet format, get Internet updates, e-mail and share data recordings, view data in line graph, bar graph, meter, digital, or superimposed format.

Features

- Gasoline and diesel engine coverage.
- Vehicle data communication and power LED indicators.
- Demo mode permits operation without vehicle connection.
- Supports multiple trouble code requests, generic codes (mode 3), pending codes (mode 7), enhanced codes, and GM DTC status.
- On-screen definitions of diagnostic trouble codes.
- On-screen text in Spanish, French, and English.
- Trilingual Quick Start Guide included to help technicians get started fixing cars FAST.
- CD-based manuals in Spanish, French, and English.
- Customize data views in line graph, LED, or digital format with the push of a button.
- All 10 modes of OBD II supported.
- Automatic recording of data.
- Three record modes – marker frame, freeze data history, and code triggered record.
- Four software-definable function keys.
- Includes six AA batteries for uninterrupted power supply and off-vehicle use.
- Internet upgradable.
