

# CDR® D2M Kit Checklists

## CDR® Direct-To-Module Kit Contents Overview

The Bosch Crash Data Retrieval Direct-To-Module Cables and Adapters allow direct connection to the vehicle's module that contains crash data.

Definition of modules:

- ACM Airbag Control Module
- ROS Roll-over Sensor
- PCM Powertrain Control Module

Please note the manufacturer listed next to each part number is the primary manufacturer associated with the corresponding cable or adapter. There may be additional vehicles from other manufacturers that use the same cable or adapter.

Use the list below to check the contents of your D2M kit(s). Reference your kit listed below to determine its contents.
