

# REMOVE BODY WORK AND PLASTIC PANELS FASTER

## GET 'EM OUT OF THE WAY

### 2495 Plastic Clip Popper

- Pulls the most frustrating plastic fasteners – Christmas-tree style, plastic rivets, and more
- Specialized angled head adds leverage to pry straight up, out of the hole
- Relief jaw design prevents damage and eliminates cutting fastener head

### 2497 Push Pin / Body Clip Pliers Set

- 3-piece pliers set removes push pins and body clips in nearly any position, without damage
- Straight, 45°, and 90° heads for pins and clips in wheel wells, under bumpers, and other tight spaces
- Scalloped and tapered jaws slide under pins and clips for fast removal

# REMOVE BODY WORK AND PLASTIC PANELS FASTER

## 5900A-PLUS Master Torx Bit Socket Set

- The most complete Torx set in 1/4", 3/8", and 1/2" square drive
- Includes Standard Torx, External Torx, Torx Plus, and Tamper-Resistant Torx in various sizes
- Slim storage case keeps sockets organized, fits easily in toolbox drawers and roll carts to have close at-hand

## 4489 Trim Fastener and Molding Removal Set

- 5-tool set removes trim pieces, molding, wheel covers and more
- Synthetic compound prevents damage and paint scratching
- Specially-designed tool shapes and tips pull, pry and separate interior panels

## 4492 E-clip Tool Set

- 5-piece set includes R&I E-clip tools and handle for 6, 7, 8, and 9mm clips
- Reversible, two-sided interchangeable tools save toolbox space to work on more applications
- Tool design removes and installs E-clips one-handed, preventing flying and lost clips
