⚠ ATTENTION: PLEASE READ THIS DOCUMENT *(FRONT AND BACK)* TO ENSURE SUCCESSFUL INSTALLATION AND USAGE OF M-VCI ESI 2.0/SFP.

Verify your computer supports the following system requirements before installing M-VCI ESI 2.0 and Shop Foreman Pro:

1. Use only a **desktop or laptop computer** (no tablet or embedded editions) with the following system requirements:

Operating System:	Microsoft Windows XP Professional 32-bit with Service Pack 3 Microsoft Vista 32-bit with Service Pack 2 Microsoft Windows 7, 32-bit or 64-bit with Service Pack 1
Graphics:	1024 x 768 pixels minimum resolution; 256 colors minimum
Memory:	Minimum of 2GB extended memory
Hard Drive:	Minimum of 80GB free space
CPU:	Core 2 Duo or equivalent, 2GHz or higher
Internet Access:	LAN or WiFi internet connection with a minimum upload/download speed of 2MB
Email:	Access to external email accounts to receive email from Bosch
Windows Updates:	Windows XP must have Service Pack 3 Windows Vista must have Service Pack 2 Windows 7 must have Service Pack 1
Java Updates:	Go to www.Java.com and click on Do I Have Java? I you don't have the most current version of Java (currently Version 7 Update 17), download and install it. Remove any old version remaining on your computer.

   Administrative Account: Verify you have Administrator access rights on this computer.

2. Confirm the computer has all system requirements by running the System Check Utility:

   • Go to:
     http://www.boschdiagnostics.com/software/diagnosticssoftware/pages/software.aspx?type=underhood

   • Select ESI[tronic] 2.0 for M-VCI

   • Download M-VCI_SW_system_check_utility.exe

   • Run this program and follow all directions until all items are OK.

3. See the back side of this document for more computer settings to use when installing and using ESI[tronic] 2.0 and Shop Foreman Pro software.

4. Before beginning to install software, confirm you have your software license information. For ESI[tronic] 2.0, an email from Bosch Customer Service with your ESI[tronic] customer number and password is needed. For Shop Foreman Pro, locate the license certificate received in your M-VCI kit.
   NOTE: If you don't have either of these, contact Bosch Customer Service at 1-800-321-4889, option 4, then 2.

5. Install ESI[tronic] 2.0 and Shop Foreman Pro by going to:
   http://www.boschdiagnostics.com/testequipment/diagnostics/scantools/vci/Pages/MVCI.aspx
   Find the install guide on the right-hand side of the page, under Related Links menu (5th link down).

6. If you have any installation problems or other technical issues, please contact 1-855-BoschTech (267-2483).

More Computer Settings

The following list of computer system settings help to ensure successful installation and use of ESI[tronic] 2.0 and Shop Foreman Pro software on your computer.

Critical: • Under Advanced Power settings, change Wireless Adapter setting to **Maximum Performance**.

Critical: • Set both USB settings to **Disable**.

- Set screen saver option to **None**.

- Turn any firewall **Off** (home, public networks including domain firewall).

- Check for all latest Windows updates (including optional), and install them.

- Set Windows update option to **Never Check for Updates**. Manually check for updates on a regular basis.

- Set Power option to **High Performance**.
Change Computer Sleep setting to **Never on battery and plugged in**.

- Set Power Button to **Shut Down**; set Lid to **Do Nothing**.

- Set User Account Control to the lowest setting.

- Disable Windows Defender by setting it to **Do Not Use this Program** in the Admin option.

- Turn **Off** all anti-virus programs.

- Uninstall any third-party anti-virus programs (including trial versions).
