Explanation of Safety Signal Words

The safety signal word designates the degree or level of hazard seriousness.

DANGER: Indicates an imminently hazardous situation which, if not avoided, will result in death or serious injury.

WARNING: Indicates a potentially hazardous situation which, if not avoided, could result in death or serious injury.

CAUTION: Indicates a potentially hazardous situation which, if not avoided, may result in minor or moderate injury.

CAUTION: Used without the safety alert symbol indicates a potentially hazardous situation which, if not avoided, may result in property damage.

Safety Precautions

WARNING: To prevent personal injury and/ or equipment damage,

- Failure to read and follow instructions and safety precautions in this manual may result in personal injury and/or damage to the tool.

- Wear eye protection that meets ANSI Z87.1, CE EN166, AS/NZS 1337, and OSHA standards.

- Keep water spray away from electric wiring or fatal electric shock may result.
- Never point the gun at anyone else or any part of your body.
- Do not leave gun under pressure and unattended at any time.
- Do not alter Power Flush Gun in any manner.
- Ensure waste coolant is recovered and disposed of in accordance with local environmental regulations.
