

To use Google Cloud Print from Encore/Evolve

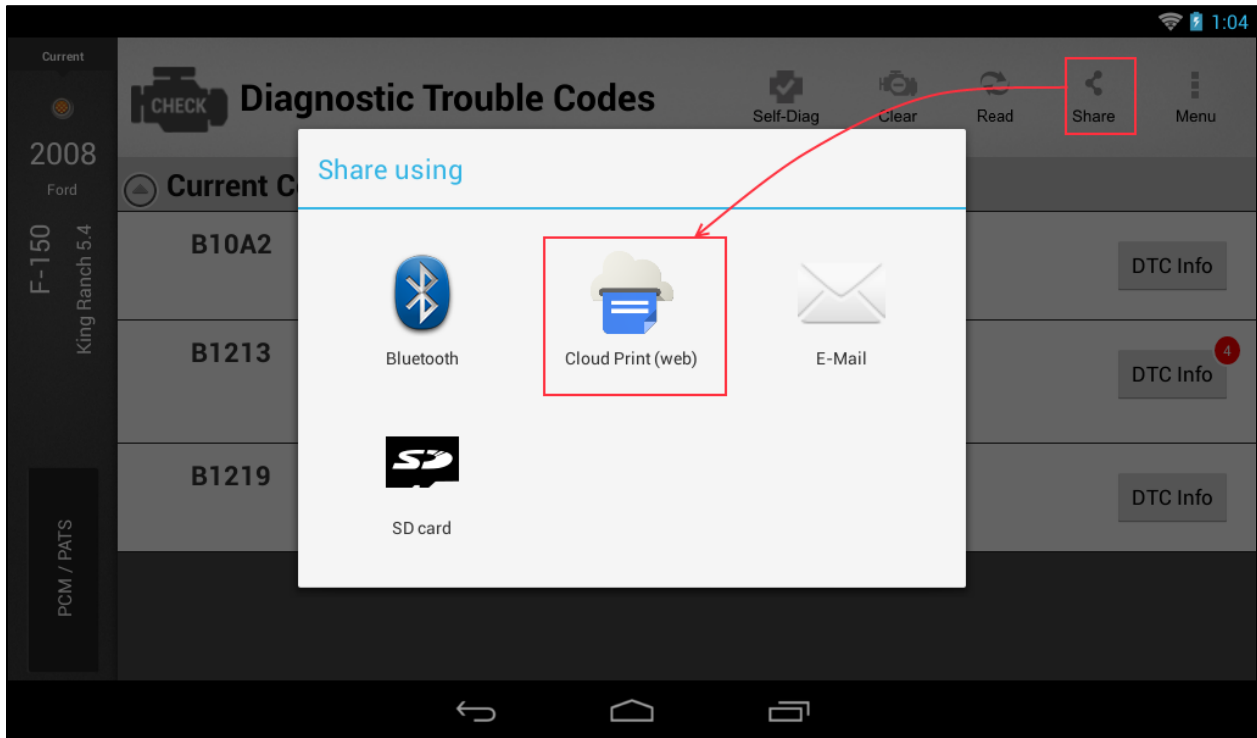

1. Ensure device is connected to internet and that network has unrestricted access to Google services.

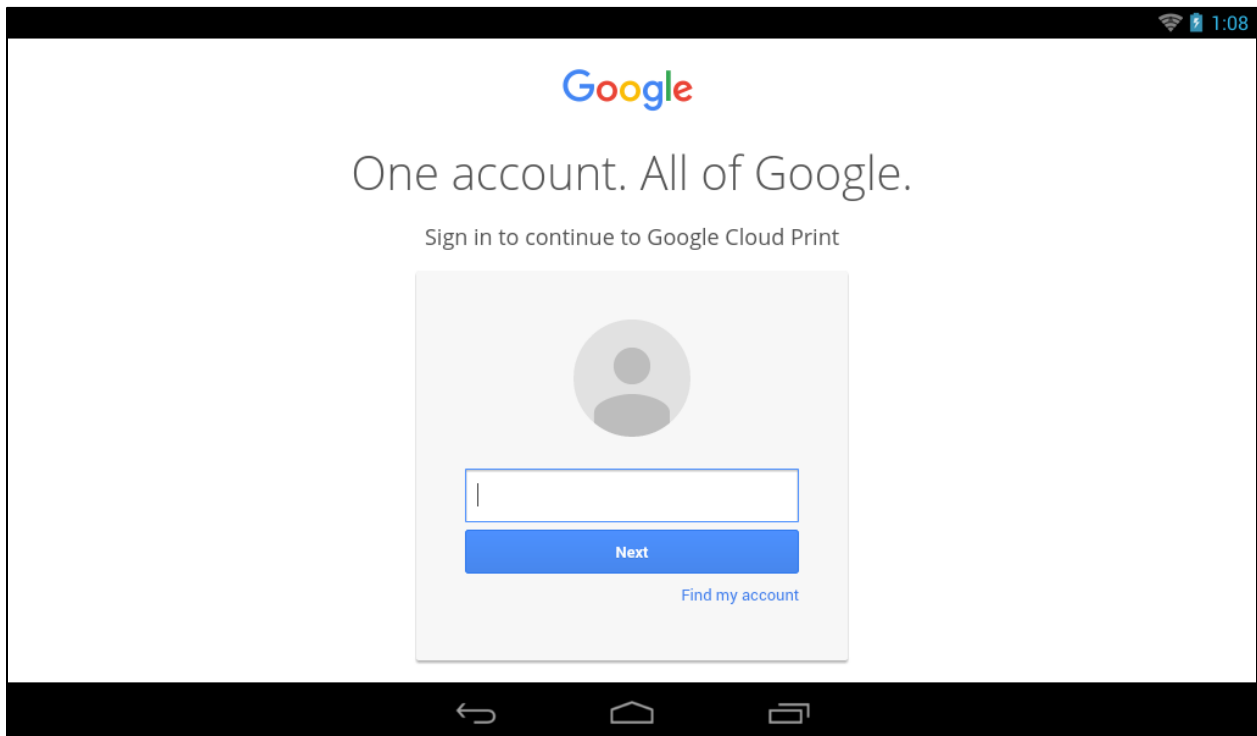

2. Connect to a vehicle and access the Diagnostics Report that you want to Print (currently available from **Read DTCs**, **All System DTC Scan** or **Automated System Test**) and locate the "Share" option:

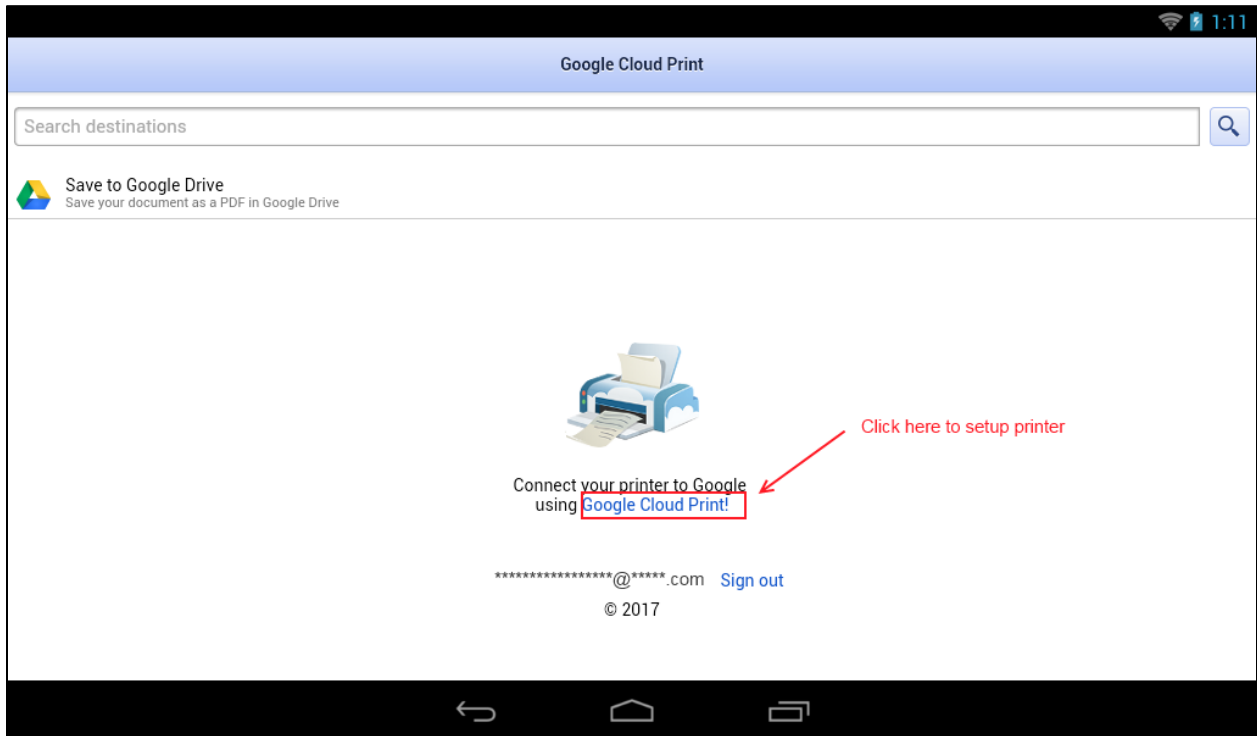

3. Select the Share option and then select Cloud Print (web):

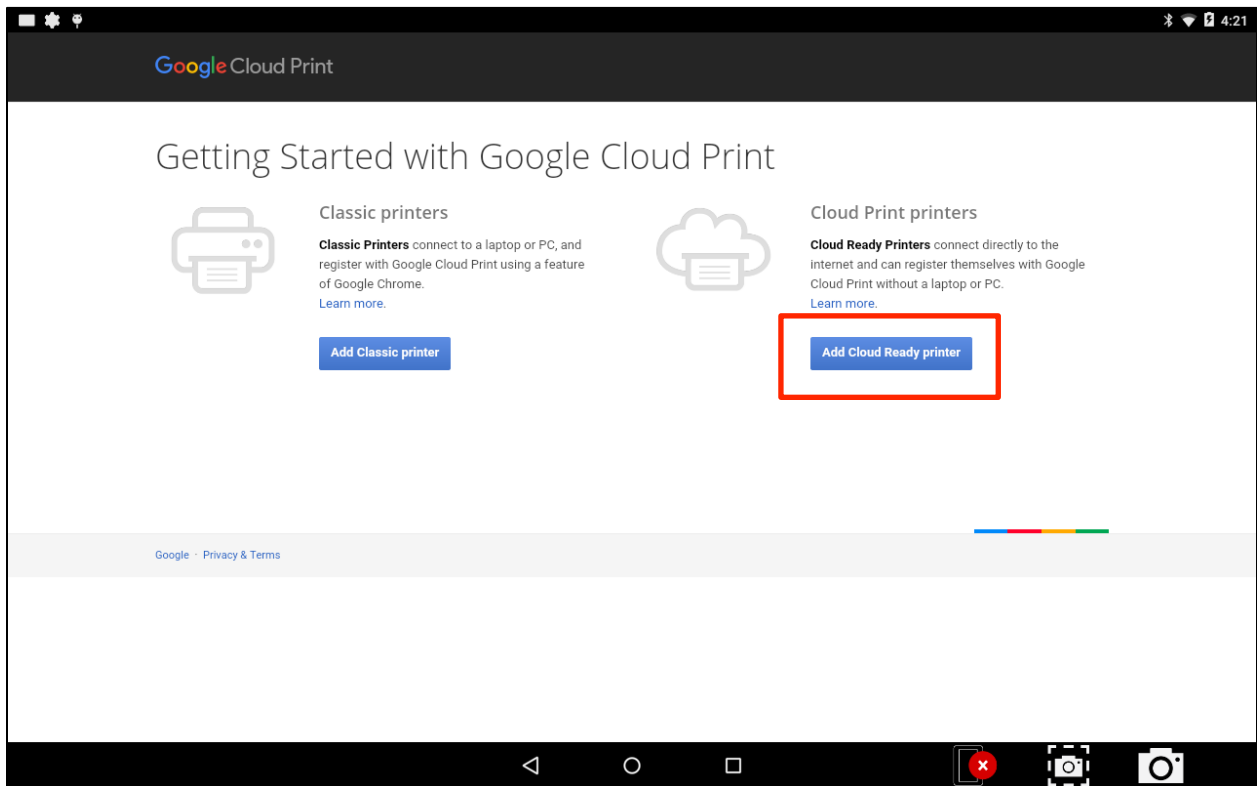

4. You will be redirected to the Google Sign In page:

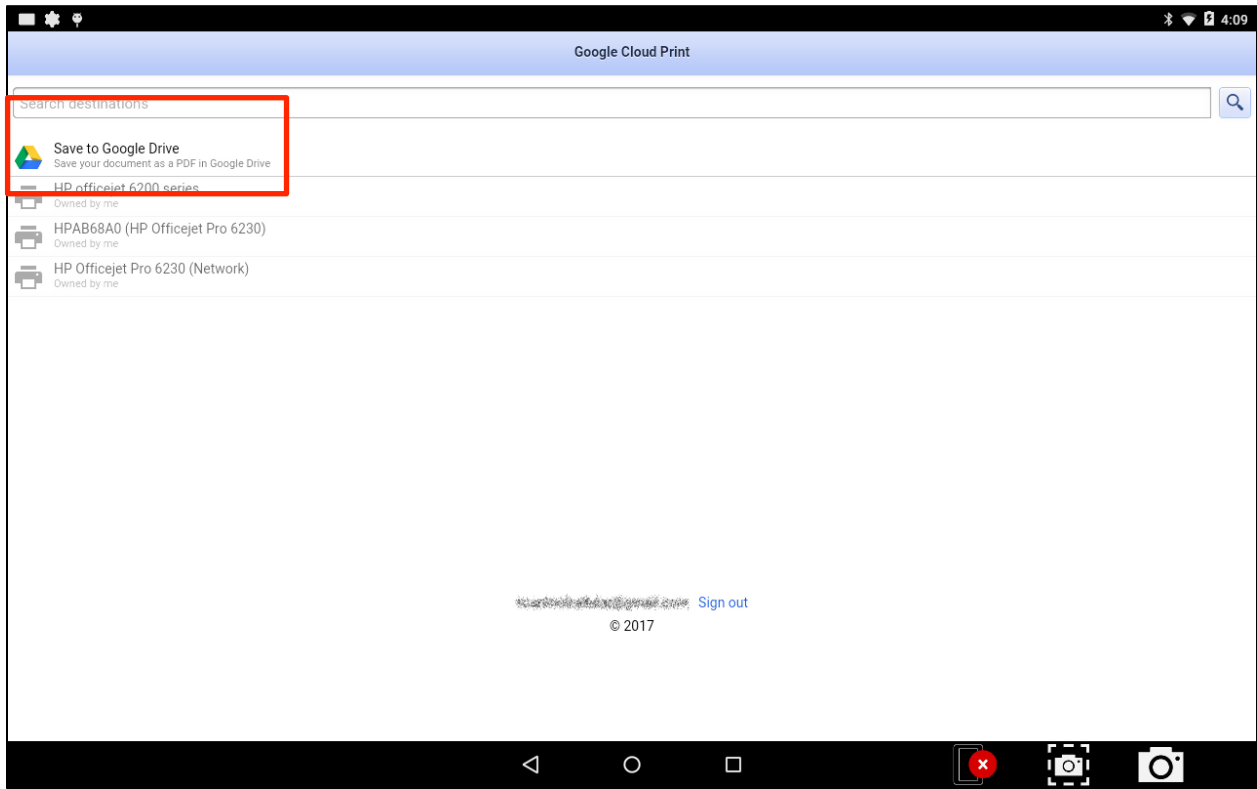

5. Once logged in, you will be redirected to the default Google Cloud Print page which manages all of your printers:

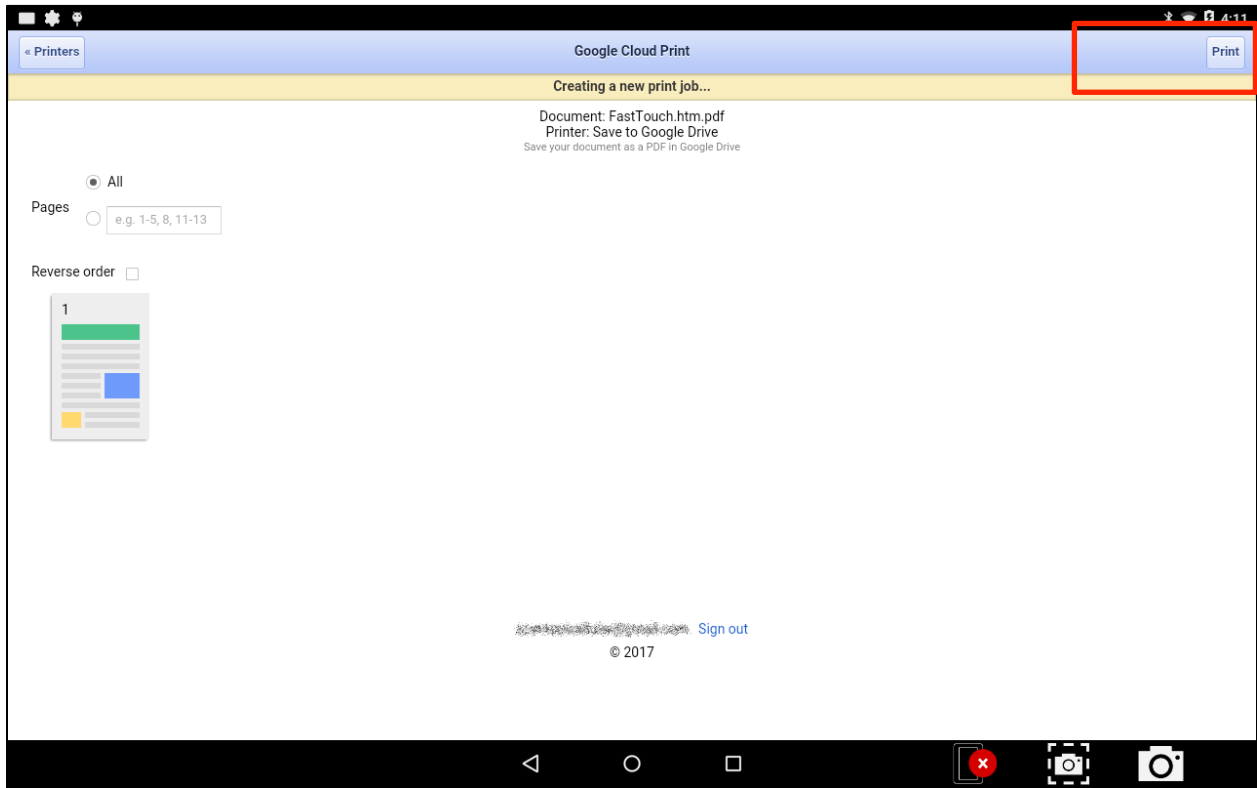

6. Select "Cloud Ready Printers"

7. Select "Save to Google Drive", or a previously setup Cloud Print printer

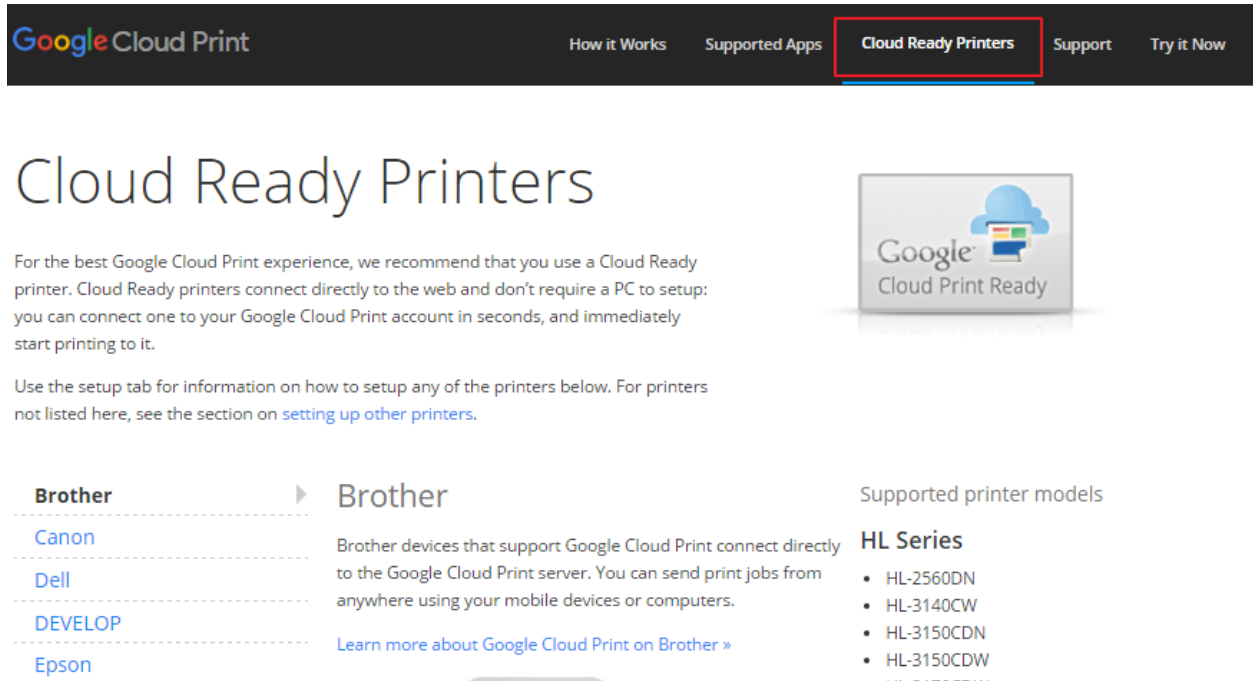

8. Select print

9. For more information on if a printer is compatible for Google Clouding Printing please see the following URL available on google: <https://support.google.com/cloudprint/learn/printers.html>. This webpage also includes detailed printer setup guides per printer manufacture.

Note: The below image is a web snap shop– actual web page may change at any time and is under the management and control of Google.

10. For more information on setting up your Google Cloud Printer or Sharing a local Printer attached to a laptop/PC, please see the following help URL available on google: <https://support.google.com/cloudprint/>
